

Outreach Calling Playbook

LumeLush Studio

For Outreach Representatives

THE CORE PRINCIPLE

You are not calling to force someone to buy something. You are calling to start a relevant business conversation.

01 Your Role

Your role is to start conversations with businesses and identify whether they are open to a short business discussion.

Your job on the call is *not* to sell a service or explain every feature, tool, or package.

Explain why you are calling → create genuine curiosity about the possible value → answer basic questions → book a 15–30 minute discussion or a callback.

The person answering the call does not necessarily have to be the owner or final decision-maker. First, simply confirm that you are speaking with someone from the business you intended to contact.

If they find the discussion relevant, they may:

- Attend the discussion themselves.
- Bring another relevant person into the discussion.
- Help arrange a later discussion with the owner or decision-maker.

Do not create unnecessary friction by immediately asking:

“Are you the owner?” · “Who is the decision-maker?”

First start the conversation.

02 What We Help Businesses With

We work with businesses in areas such as energy, infrastructure and technical services. We help them explore ways to:

- Increase commercial projects and other business enquiries.
- Handle incoming enquiries better.
- Follow up before opportunities go cold.
- Improve conversion.
- Use existing customer relationships and data better.
- Generate more repeat business.
- Generate more referrals.

Every business is different, so we do not assume that every business needs the same solution. The discussion first helps us understand the business and identify what may actually be relevant.

03 Why Are We Calling?

We are not calling to randomly sell a website, social media management, advertising, SEO, CRM, automation, or any other individual service.

We are reaching out because the business may have opportunities to improve areas such as:

- Commercial projects and business enquiries
- Follow-up and conversion
- Existing customer relationships, repeat business and referrals

The purpose of the initial call is simply to see whether the person is open to understanding this approach.

04 Why Should They Attend the Discussion?

Do not present the meeting as “attend the meeting so we can sell you something.” Instead, explain that the discussion gives them an opportunity to understand:

- Their current business situation from another perspective.
- What they may want to improve.
- Where there may be opportunities.
- What approaches may be relevant.

The discussion takes approximately 15–30 minutes. Explain clearly that afterwards they are free to decide whether anything is relevant to their business. There is no need to pressure anyone into continuing further.

05 The Most Important Rule

RULE

Do not start listing services.

A cold call is short. If you immediately say “we do websites, SEO, CRM, automation, WhatsApp marketing, email marketing...” the person may immediately think: *this is another agency trying to sell me services*.

Instead, focus first on what business areas we help improve. If they ask for more details, answer honestly and simply. Do not hide information — but do not overwhelm them with unnecessary details during the initial call.

06 How to Introduce Yourself

At the beginning of the call, introduce yourself as a person, not as a corporate announcement. Do not start with “Hello, I am calling from LumeLush Studio...” — this can immediately make the conversation feel like a formal sales call.

Instead, start naturally with your name. If they ask which company you are calling from, answer clearly and honestly: LumeLush Studio. Never hide the company name if asked.

07 Basic Call Structure

- 01

Confirm that you reached the correct business.
- 02

Introduce yourself using your name.
- 03

Check whether it is a convenient time.
- 04

Explain clearly why you are calling.
- 05

Listen.
- 06

Answer their questions or objections.
- 07

Explain what happens in the 15–30 minute discussion.
- 08

Book the discussion or a callback.

PART TWO

The Call, Line by Line

08 Call Opening — Confirm the Business

ENGLISH

Hello, good morning / afternoon. Is this [Company Name]?

HINDI

Hello Sir / Ma’am, good morning / afternoon. Kya main [Company Name] se baat kar raha / rahi hoon?

If **yes**: continue.

If **no**: say the following. If they can help with the correct contact, thank them. Otherwise: “Thank you for your time.”

ENGLISH

Oh, I’m sorry. I was trying to reach [Company Name].

HINDI

Oh, sorry. Main [Company Name] se contact karne ki koshish kar raha / rahi tha / thi.

09 Introduce Yourself

ENGLISH

Great. My name is [Name]. ... Did I catch you at a bad time?

HINDI

Great. Mera naam [Name] hai. ... Kya abhi baat karne ka convenient time hai? (or: Kya main aapko wrong time par call kar raha / rahi hoon?)

10 If They Ask — “Who are you calling from?”

ENGLISH

I’m calling from LumeLush Studio. We work with businesses in the energy, infrastructure and technical service sectors on business growth and customer opportunities.

HINDI

Main LumeLush Studio se baat kar raha / rahi hoon. Hum Energy, Infrastructure aur Technical Service businesses ke saath business growth aur customer opportunities ke areas mein kaam karte hain.

11 If They Are Busy

Do not explain everything. Get a specific day and time.

ENGLISH

No problem at all. When would be a convenient time for me to call you for a quick two-minute conversation? ... Perfect. I'll call you then. Thank you.

HINDI

Koi problem nahi. Aapse do minute baat karne ke liye kaunsa time convenient rahega? ... Perfect. Main uss time aapse call kar leta / leti hoon. Thank you.

RESULT: CALLBACK BOOKED

12-13 If They Say — “Yes, tell me.”

Explain why you are calling. Keep it natural. Do not speak too fast, and do not make it sound memorised.

ENGLISH

Great, I'll keep it brief. We work with businesses in the Energy, Infrastructure and Technical Service sectors.

We help businesses explore ways to increase commercial projects and other enquiries, handle and follow up on opportunities better before they go cold, and use their existing customer relationships to generate more repeat business and referrals.

We thought this could potentially be relevant to your business, so I wanted to see whether you'd be open to understanding the approach.

HINDI — CONVERSATIONAL

Great, main short mein bata deta / deti hoon. Hum Energy, Infrastructure aur Technical Service businesses ke saath kaam karte hain.

Hum businesses ko commercial projects aur doosri business enquiries badhane mein help karte hain, jo enquiries already aa rahi hain unko better tarike se handle aur follow-up karne mein help karte hain, aur existing customers ko better tarike se use karke repeat business aur referrals badhane mein help karte hain.

Hume laga ye aapke business ke liye bhi relevant ho sakta hai, isliye hum aapse baat karna chahte the. Kya aap is approach ko thoda aur samajhne ke liye open honge?

14 Stop and Listen

After explaining why you called — stop talking.

Let the person respond. Do not immediately continue into a long explanation. Their response tells you what to do next.

PART THREE

Questions & Objections

Answer honestly, keep it short, and return to the invitation.

15 “What exactly do you do?”

ENGLISH

In simple terms, we first look at how the business currently brings in opportunities, how those opportunities and enquiries are handled and followed up, and how existing customers are being used for repeat business and referrals.

Based on that, we identify where there may be opportunities to improve and discuss what approach could be relevant. Every business is different, so we don't assume the same approach works for everyone.

HINDI

Simple terms mein, hum pehle dekhte hain ki business mein opportunities aur enquiries kaise aa rahi hain, unko kaise handle aur follow-up kiya ja raha hai, aur existing customers se repeat business aur referrals kitne effectively generate ho rahe hain.

Uske according hum dekhte hain ki improvement ki opportunity kahan ho sakti hai aur business ke liye kya relevant ho sakta hai. Har business different hota hai, isliye hum sabke liye same approach assume nahi karte.

16 “What services do you provide?”

ENGLISH

The exact work depends on what the business actually needs. Rather than giving you a long list of things that may not even be relevant to your company, we first understand the business and then discuss what could actually be useful.

HINDI

Exact work business ki actual requirement par depend karta hai. Abhi phone par main aapko services ki ek long list nahi dena chahta / chahti, kyunki zaroori nahi ki woh sab aapke business ke liye relevant bhi ho. Pehle business ko samajhte hain, phir dekhte hain ki actual mein kya useful ho sakta hai.

17 “Is this a marketing agency?”

ENGLISH

We work on business growth and customer opportunities, but we're not calling to sell a standard marketing package. The approach depends on what the individual business actually needs.

HINDI

Hum business growth aur customer opportunities ke areas mein kaam karte hain, lekin ye koi standard marketing package sell karne ka call nahi hai. Business ki actual requirement ke according approach different ho sakta hai.

18 “Is this about a website?”

ENGLISH

Not specifically. We're not calling because we assume your business needs a new website. The broader discussion is about business opportunities, enquiries, follow-up, conversion and getting more value from existing customers.

HINDI

Nahi, specifically website ke liye call nahi hai. Hum ye assume karke call nahi kar rahe ki aapko new website chahiye. Discussion overall business opportunities, enquiries, follow-up, conversion aur existing customers se better business generate karne ke baare mein hai.

19 “Is this about ads or social media?”

ENGLISH

Not specifically. We're not calling to sell advertising or social media management. We first look at what the business actually needs rather than assuming the solution in advance.

HINDI

Nahi, specifically ads ya social media sell karne ka call nahi hai. Hum pehle se assume nahi karte ki har business ko ads ya social media ki zaroorat hai. Pehle business ki actual requirement samajhte hain.

20 “What are you selling?”

ENGLISH

I’m not calling to sell you one particular service over this call. I’m reaching out to see whether our approach to improving business opportunities, follow-up and existing customer growth could be relevant to your business.

HINDI

Main abhi phone par aapko koi ek particular service sell karne ke liye call nahi kar raha / rahi. Main bas ye dekhna chahta / chahti hoon ki jo approach hum businesses ke saath use karte hain, kya woh aapke business ke liye relevant ho sakta hai.

21–22 Explaining & Inviting Them to the Discussion

ENGLISH

The reason we suggest a short discussion is that every business handles these areas differently.

In around 15 to 30 minutes, we can first understand your current business situation and what you’re trying to improve. Then we’ll discuss the areas where there may be an opportunity and explain the approach that could be relevant.

After that, you can decide whether anything makes sense for your business. Would you be open to having that discussion?

HINDI

Actually isi liye hum ek short discussion suggest karte hain, kyunki har business ye cheezein different tarike se handle karta hai.

Around 15 se 30 minutes mein pehle hum aapke current business ko samjhenge aur ye samjhenge ki aap kya improve karna chahte hain. Uske baad dekhenge ki kahan opportunities ho sakti hain aur aapke business ke liye kya approach relevant ho sakta hai.

Uske baad aap khud decide kar sakte hain ki aapke business ke liye kuch relevant hai ya nahi. Kya aap ek short discussion ke liye open honge?

23 If They Say Yes

ENGLISH

Great. Would a normal phone discussion be convenient, or would you prefer Google Meet? ... What would be more convenient for you — morning or afternoon?

HINDI

Great. Aapke liye normal phone discussion convenient rahega ya Google Meet prefer karenge? ... Aapke liye morning convenient rahega ya afternoon?

Confirm: date · time · phone or Google Meet · name · WhatsApp number · email, if required.

24 “I’m not the owner.”

Do not make this a problem.

ENGLISH

That’s completely fine. I just wanted to speak with someone from the business first. Would you be able to join the discussion and understand the approach?

HINDI

Koi problem nahi. Main bas business mein kisi se pehle baat karna chahta / chahti tha / thi. Kya aap discussion join karke approach ko samajh sakte hain?

If yes: “Perfect. You can first understand the approach. If afterwards you feel someone else should also be involved, we can arrange the next discussion accordingly.” — then book the discussion. *(Hindi: Perfect. Aap pehle approach samajh lijiye. Uske baad agar aapko lage ki owner ya kisi aur person ko bhi involve karna chahiye, toh hum next discussion accordingly arrange kar sakte hain.)*

If they cannot join: “No problem. Who would normally be the appropriate person to involve in a discussion like this?” *(Hindi: Koi problem nahi. Is type ki discussion ke liye business mein kaun appropriate person rahega?)*

25 “I’m just an employee.”

ENGLISH

That’s absolutely fine. Would you be able to let me know who would be better to speak with regarding this?

HINDI

Bilkul, koi problem nahi. Kya aap mujhe bata sakte hain ki is type ki discussion ke liye kis person se baat karna better rahega?

26 “WhatsApp me.”

ENGLISH

Certainly. I’ll send you a brief introduction so you can understand who we are and what we work on. Once you’ve had a chance to look at it, I’ll follow up to get your thoughts. If it seems relevant, we can schedule the discussion. What would be a convenient time for me to follow up?

HINDI

Bilkul. Main aapko ek brief introduction WhatsApp kar deta / deti hoon jisse aap samajh sakein ki hum kaun hain aur kis type ka kaam karte hain. Aap dekhne ke baad main aapse ek short follow-up call kar lunga / lungi. Agar aapko relevant lage toh discussion schedule kar lenge. Follow-up ke liye kaunsa time convenient rahega?

Do not just send the information. Always try to get a specific follow-up time.

27 “Email me.”

ENGLISH

Certainly. I’ll send you a brief introduction by email. Once you’ve had a chance to review it, what would be a convenient time for me to follow up?

HINDI

Bilkul. Main aapko company ka brief introduction email kar deta / deti hoon. Aap review karne ke baad main kab follow-up karun? Kaunsa time convenient rahega?

28 “Where did you get my number?”

Always tell the truth.

FROM GOOGLE

We found it through your company’s publicly available Google listing. / Aapka number hume aapki company ki publicly available Google listing se mila.

FROM THEIR WEBSITE

We found it through the publicly available contact information on your website. / Aapke website par jo publicly available contact information hai, wahan se mila.

FROM A BUSINESS DIRECTORY

We found it through publicly available business information. / Publicly available business information se mila.

THEN ADD

If this isn’t the appropriate number for business communication, please let me know. / Agar ye business communication ke liye appropriate number nahi hai toh please mujhe bata dijiye.

29 “Why did you call our company?”

ENGLISH

We came across your company while researching businesses in this sector. We felt that the areas we work on could potentially be relevant to businesses like yours, so we decided to reach out.

HINDI

Hum is sector ke businesses ko research kar rahe the aur usi process mein hume aapki company mili. Hume laga ki jin areas mein hum kaam karte hain woh aapke type ke business ke liye relevant ho sakte hain, isliye humne aapse contact kiya.

30 “We already have a website.”

ENGLISH

That’s completely fine. We’re not calling because we assume you need a new website. The discussion is broader than that — it’s about business opportunities, enquiries, follow-up, conversion and getting more value from existing customers.

HINDI

Bilkul, koi problem nahi. Hum ye assume karke call nahi kar rahe ki aapko new website chahiye. Discussion sirf website ke baare mein nahi hai. Overall enquiries, follow-up, conversion aur existing customers se better business opportunities generate karne ke baare mein hai.

31 “We already have an agency.”

ENGLISH

That’s absolutely fine. We’re not calling on the assumption that you need to replace your current agency. This is simply an opportunity to understand another approach and decide whether anything may be relevant to your business.

HINDI

Bilkul, koi problem nahi. Hum ye assume nahi kar rahe ki aapko apni current agency replace karni hai. Aap simply ek different approach samajh sakte hain aur phir khud decide kar sakte hain ki kuch aapke business ke liye relevant hai ya nahi.

32 “How much does it cost?”

ENGLISH

The cost depends on what is actually relevant to the business. We don’t want to quote you for something before understanding whether you actually need it. The first discussion is simply to understand the business and see whether there is a relevant opportunity.

HINDI

Cost business ki actual requirement par depend karega. Bina business ko samjhe hum aapko koi random price nahi batana chahte. Pehli discussion ka purpose bas business ko samajhna aur dekhna hai ki actual opportunity kya hai.

33-34 “I don’t have time.” · “Call me later.”

ENGLISH

I completely understand. That’s why the discussion is only around 15 to 30 minutes and can be scheduled at a time convenient for you. Would another day or time be easier? ... Certainly. What time would be convenient for me to call you?

HINDI

Bilkul, samajh sakta / sakti hoon. Isi liye discussion sirf around 15 se 30 minutes ki hoti hai aur aapke convenient time par schedule ki ja sakti hai. Kya kisi aur day ya time par convenient rahega? ... Bilkul. Main aapko kis time call karun jo aapke liye convenient rahe?

Get a specific time.

35 “Send everything on WhatsApp.”

ENGLISH

Certainly. I’ll send you a brief introduction so you can understand what we do. Since the exact approach depends on the business, the detailed discussion would still need to happen after you review it. When would be a convenient time for me to follow up?

HINDI

Bilkul. Main aapko ek brief introduction send kar deta / deti hoon jisse aap samajh sakein ki hum kya karte hain. Exact approach business ki situation par depend karta hai, isliye detailed discussion business ko samajhne ke baad hi meaningful hoga. Main aapse follow-up kab karun?

36 “I don’t do commercial projects.”

Do not force the commercial-project angle.

ENGLISH

I understand. Commercial projects are only one of the areas we look at. We also look at how businesses handle existing enquiries and customers to improve conversion, repeat business and referrals. Would exploring those areas be relevant to your business?

HINDI

Samajh gaya / gayi. Commercial projects sirf ek area hai. Hum ye bhi dekhte hain ki jo enquiries aur existing customers business ke paas already hain, unko better tarike se use karke conversion, repeat business aur referrals kaise improve kiye ja sakte hain. Kya ye aapke business ke liye relevant ho sakta hai?

37 “We get enough enquiries.”

ENGLISH

That’s good to hear. In that case, the question may not be about getting more enquiries. It could be more about how existing enquiries are followed up, converted and how existing customers are used for repeat business and referrals. Would it be useful to explore those areas?

HINDI

That’s good to hear. Phir shayad focus aur enquiries lane par nahi hoga. Ho sakta hai existing enquiries ka follow-up, conversion aur existing customers se repeat business aur referrals generate karne ke areas more relevant hon. Kya in areas ko explore karna useful ho sakta hai?

38 “We are already doing all of this.”

ENGLISH

That’s great to hear. In that case, you may already have a strong system in place. The discussion could still give you another perspective, but of course it only makes sense if you’re open to exploring whether there are any additional opportunities.

HINDI

That’s great. Agar aap already ye sab effectively kar rahe hain toh aapke paas already strong system hoga. Discussion sirf ek additional perspective de sakti hai, lekin obviously tabhi jab aap dekhna chahein ki koi further opportunity hai ya nahi.

Do not push aggressively.

39 “We don’t need this.”

ENGLISH

I understand. May I ask one quick question? Are you completely satisfied with the way your business currently handles new opportunities, follow-up and existing customers?

HINDI

Bilkul, samajh sakta / sakti hoon. Ek quick question pooch sakta / sakti hoon? Kya aap completely satisfied hain ki abhi aapke business mein enquiries, follow-up aur existing customers se repeat business aur referrals sabse effective way mein handle ho rahe hain?

IF THEY SAY YES

“That’s great to hear. Thank you for your time. Have a good day.” End the call.

IF THEY MENTION A PROBLEM

“That’s exactly why I thought a short discussion might be useful — only 15 to 30 minutes. Would you be open to that?”

40 “Not interested.”

Do not immediately argue. Ask permission for one quick question first.

ENGLISH

I understand. Before I let you go, may I ask one quick question? ... Are you completely satisfied with how your business currently brings in opportunities, follows up with them and generates repeat business from existing customers?

HINDI

Bilkul, samajh sakta / sakti hoon. Call end karne se pehle ek quick question pooch sakta / sakti hoon? ... Kya aap completely satisfied hain ki abhi aapke business mein opportunities aur enquiries aa rahi hain, unka proper follow-up ho raha hai aur existing customers se maximum repeat business aur referrals mil rahe hain?

Then listen. If they are clearly not interested, do not keep pushing: “No problem at all. Thank you for your time. Have a good day.” (Hindi: Koi problem nahi. Aapka time dene ke liye thank you. Have a good day.)

41 “We are a small company.”

ENGLISH

That’s completely fine. The discussion is not based only on the size of the company. The purpose is simply to understand how the business currently handles opportunities and whether there is anything relevant that could help.

HINDI

Bilkul, koi problem nahi. Discussion sirf company ke size par depend nahi karti. Purpose bas ye samajhna hai ki business opportunities ko currently kaise handle kar raha hai aur koi relevant improvement possible hai ya nahi.

42 “Send me your price first.”

ENGLISH

I understand why you’d want to know that. The difficulty is that we don’t know what would actually be relevant to your business yet. Giving you a random price without understanding the requirement wouldn’t be useful to either of us. The short discussion helps us understand the situation first.

HINDI

Bilkul, samajh sakta / sakti hoon ki aap pehle price jaan-na chahenge. Lekin abhi hume ye nahi pata ki aapke business ke liye actual mein kya relevant hoga. Bina requirement samjhe random price dena useful nahi hoga. Short discussion ka purpose pehle situation ko samajhna hai.

43-45 Who’s in the discussion · Asking the owner

“WHO WILL BE IN THE DISCUSSION?”

The detailed discussion will be handled by our consultant. They will first understand your business situation and then discuss the areas that may be relevant. / Detailed discussion hamare consultant handle karenge. Pehle woh aapke business situation ko samjhenge aur phir jo areas relevant honge unke baare mein discussion karenge.

“I NEED TO ASK MY OWNER / PARTNER.”

Of course, that’s completely understandable. Would it help if we schedule the discussion at a time when they can also join? / Bilkul. Kya hum discussion aise time schedule karenin jab woh bhi join kar saken?

“CALL THE OWNER DIRECTLY.” — DO NOT RESIST

Certainly. Could you please let me know the best way or time to reach them? / Bilkul. Kya aap mujhe bata sakte hain unse contact karne ka best time ya way kya rahega?

46-47 If They Become Suspicious

Stay calm. Do not become defensive.

ENGLISH

I understand — this is an unexpected business call. That’s why I’m keeping the initial conversation brief. You can understand the approach first and then decide whether a discussion is relevant for you. (How long will it take? Around 15 to 30 minutes.)

HINDI

Bilkul, samajh sakta / sakti hoon. Ye ek unexpected business call hai, isliye main initial conversation short rakh raha / rahi hoon. Aap pehle approach samajh sakte hain aur phir decide kar sakte hain ki discussion aapke liye relevant hai ya nahi. (Discussion around 15 se 30 minutes ki hoti hai.)

48 If They Agree to a Meeting

Before ending the call, confirm and then repeat back:

Person’s name	Phone discussion or Google Meet
Company name	WhatsApp number
Date and time	Email, if required

ENGLISH

Perfect. Just to confirm, our discussion is scheduled for [Day], [Date] at [Time]. It should take approximately 15 to 30 minutes. Thank you — we’ll send you the confirmation shortly.

HINDI

Perfect. Just confirm kar raha / rahi hoon — hamari discussion [Day], [Date], [Time] par scheduled hai. Around 15 se 30 minutes lagenge. Thank you. Hum aapko shortly confirmation send kar denge.

PART FOUR

After the Call

49 Recording the Call Result

The caller must update the call result correctly after every call.

STATUS	WHAT TO RECORD
1 • Meeting booked	Name, company, date, time, meeting type, contact details
2 • Callback booked	Specific date, specific time, reason for callback
3 • Information sent	WhatsApp or email, what was sent, follow-up date and time
4 • Contact another person	Person’s name, role, contact number, best time to contact
5 • Not interested	Clearly declined. Do not repeatedly contact unless there is a valid reason and permission to follow up.
6 • Wrong number	Not connected to the intended business.
7 • No answer	No response. Schedule the next outreach attempt according to the outreach process.

50-51 Never & Always

NEVER DO

- Ask for the owner before explaining why you are calling.
- Treat the person answering as unimportant.
- Interrogate someone about their role.
- Immediately list every service.
- Pretend the call is something other than a business call.
- Hide the company name when directly asked.
- Make false claims or promise guaranteed results.
- Lie about where the number came from.
- Invent pricing.
- Argue, or keep pushing after a clear refusal.
- Promise the discussion will solve their business problem.
- Give information you are not authorised to provide.

ALWAYS DO

- Confirm you reached the correct business.
- Introduce yourself naturally, using your name.
- Speak like a person, not a recorded message.
- Mention the company clearly if asked.
- Clearly explain why you are calling.
- Focus on business outcomes, not service lists.
- Listen carefully and answer honestly.
- Ask for a specific callback time.
- Mention the discussion takes 15–30 minutes.
- Explain what will actually happen in it.
- Make clear they decide afterwards.
- Respect every person you speak with.

52 The Core Principle

You are not calling to force someone to buy something. You are calling to start a relevant business conversation: clearly explain why you called → understand their response → answer basic questions → help them decide whether spending 15–30 minutes on a detailed discussion could be useful.

THE PERSON SHOULD FINISH THE CALL THINKING

- “I understand why this person called me.”
- “This could potentially be relevant to our business.”
- “I understand what the discussion will be about.”
- “It only takes 15–30 minutes.”
- “I can decide afterwards whether anything makes sense for my business.”

When they ask for details

“WhatsApp me the details.”

Do not argue—but don’t send the package deck or pricing.

- “Certainly. I’ll WhatsApp you our company profile so you can know a little about us.”
- “I’ll also give you a quick call after you’ve had a chance to look at it. What would be a convenient time for me to call you?”

WHATSAPP MESSAGE
